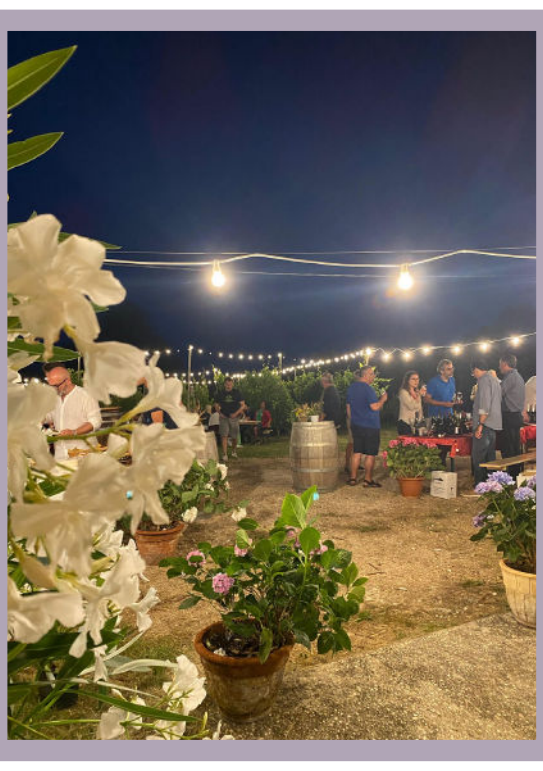
APERITIVO IN VINEYARD

Local wine tastings in the vineyard served with local products

In the months of July and August the winery Terre di San Ginesio organizes tastings (*apericena*, which literally means *aperitivo* + *cena*) of their own wines in an idyllic vineyard.



APERITIVO IN VINEYARD

The vineyard, nestled on a hill-side approximately 600 meters above sea level, is decorated with lights and tables set between the rows of vines. This provides for a unique and unforgettable atmo-sphere.

The wines are paired with local gastronomic products as per the guided tasting in the winery.
